

CONTAINMENT SYSTEM DISCOVERY WORKSHEET

COMPANY

EMAIL

NAME

PHONE NUMBER

LOCATION

OPPORTUNITY ID

SIMILAR TO TASKMATCH ENCLOSURE OR STANDARD ENCLOSURE (SKU, TITLE, OR LINK)

PROCESS

What is being done inside of the enclosure? What type of material (powder, liquid, gas, nuisance odor) is being worked with? How does the material enter and exit the enclosure system? etc...

CONTAINMENT

What type of filtration is required? Single HEPA, Dual HEPA, Carbon, House Exhaust, etc... What is the required OEL (Occupational Exposure Limit) for the process, or any other details about containment goals? What is the quantity of powder or liquid, task duration, composition of powder, etc...?

EQUIPMENT

What equipment is being worked with? What is the equipment model, size, scope, function, and any other information that will affect the design of the enclosure, including movement, heat output, etc...?

State the specific equipment make and model if available

FACILITY

Are there any details on the facility that could affect the design of the enclosure including ceiling height, install door width, installation path, docks, available CFM, etc...? Any special shipping instructions such as required disassembly, flat packing, etc.

SCOPE

When are you looking to have this unit installed and ready for use? Are there any other details about the project that should be considered? Is this part of a construction or renovation project?

FURNITURE

Do you need a table or cabinet and if so, do you require any special features such as shelf, extension, equipment support, etc.? Would you prefer 304 or 316 SS or a powder coated mild steel? What working height would you like? Do you need it to be stationary or movable? Lift (adjustable height) or fixed height?

SERVICES

Surrogate Powder Factory Acceptance Testing

On-site Installation

Cleaning Protocol

Site Acceptance Testing

System Mock-up

Turnover Package

IQQQ (Installation Operational Qualification)

Flat Pack Required

Engineering Consultation

OTHER NOTES AND INFORMATION

Are there any additional notes or information that should be considered?
Are there any special design requirements?
